Command and control
Exfiltration
Impact

L0 Campaign intelligence

one attack flow per incident

- attack flow A
- attack flow B
- in both flows
- other flows

flow A

flow B

... and the other 36 flows of the corpus

aggregate

L1 Attack graph

every flow, one graph

condition on objective

L2 Attack profiles

Exfiltration objective

Impact objective

Double extortion

No realised objective

give executable semantics

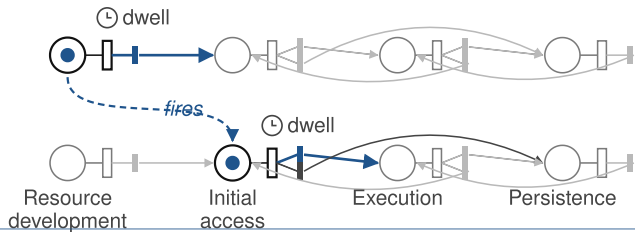

L3 Petri net

one profile, one net

- tactic (place)
- timed dwell
- weighted move
- token

before

after

join

L4 MTDSim

the runtime loop
