

a profile's generalised stochastic Petri net, drawn schematically

Dwell times

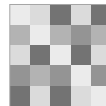

per-tactic mean, exponential draw

Tactic-to-verb mapping

partial: some tactics dwell-only

Failure matrix

applied on failure only

drawn dwell time ②

verb ③  
dwell-only: none —  
no verdict returns

④ verdict

failure

success

① tactic  
re-weighted, renormalised ⑤

success: base proportions stand

inherited from MTDSim, the discrete-event simulator

**Attacker**

executes the verb over the drawn time

**Network**

hosts, services,  
vulnerabilities

**Defender**

moving target  
defence
